READY FOR THE SUSTAINABLE FUTURE

In a global environment where the demand for renewable energy is constantly growing, we are among the leading power and energy solution providers in the Levant. Jallad is committed to helping our customers access greener and smarter energy. With over 100 years of experience as one of the region's leaders in the field, we are ready for the new era marked by clean and sustainable energy.

For us, it is essential to offer customers excellent solutions that can meet current needs as well as future demand.

Manufacturers

- Jinko Solar: Jinko Solar is currently the world's largest solar panel manufacturer.
- Longi: Longi Solar one of the largest suppliers of mono-crystalline silicon wafers in the world. Longi Solar achieves a better LCOE (levelized cost of electricity) solution for residential and commercial systems.
- Fimer: FIMER has one of the widest portfolios of solar inverters ranging from small single-phase and three-phase string inverters up to megawatt-sized centralized solutions.
- Solax Power: SolaX products are designed, tested and manufactured to the highest global standards.
- INVT: awarded as the high-tech enterprise of National Torch Plan based on mastering of key technologies in power electronics, auto-control and IT.
- ComAp: ComAp globally leads the way in providing smart power control solutions and a wide range of products that are highly flexible, intuitive, and scalable.
- Deif: DEIF is a global supplier of green, safe and reliable power control solutions for decentralized power generation on land and at sea.
- Aspiro: ASPIRO group introduces energy efficient and high performing Solar Tubular Batteries and SMF Batteries to meet different residential, institutional and industrial requirements.
- Vestwoods: is a national high-tech enterprise that provides customized solutions and products for lithium battery power systems for the global needs of telecom power, energy storage, and power supply.

Made in

Jinko PV Panels: China
Longi PV Panels: China
Fimer Inverters: Italy

Solax Inverters: China
INVT Inverters: China
ComAp Controller: Czech Republic

DEIF Controller: Denmark
Vintage Batteries: India
Vestwoods Batteries: China

ABOUT US

In 1873, M. Ezzat Jallad & Fils was established as a commission house in Beirut and then developed into an import/export organization for agricultural, industrial, and construction equipment. In 1929, the company acquired the Caterpillar equipment dealership, the world's leading manufacturer of construction and mining equipment as well as diesel and gas engines. Other world renowned global brands soon followed suit.

Today, we serve our customers in the power generation, renewable energy, construction, earthmoving, excavation, industrial, marine, and agricultural sectors via three facilities and two outlets.

We provide a full range of products and attachments covering the entire equipment life cycle backed by exceptional product support and warranty services. Starting in product acquisition, genuine parts, and culminating in professional after-sales support; we ensure minimal down time and maximum productivity of our product.

Our goal has always been to provide our customers with best-in-class support and the highest quality products powered by leading technology and innovation.
