# ABOUT US

In 1873, M. Ezzat Jallad & Fils S.A.L was established as a commission house in Beirut and then developed into an import/export organization for agricultural, industrial, and construction equipment. In 1929, the company was awarded the Caterpillar equipment dealership, the world's leading manufacturer of construction and mining equipment as well as diesel and gas engines. Other world renowned global brands soon followed suit.

Today, we serve our customers in the power generation, renewable energy, construction, earthmoving, excavation, industrial, marine, and agricultural sectors via all our branches.

We provide a full range of products and attachments covering the entire equipment life cycle backed by exceptional product support and warranty services. Starting in product acquisition, genuine parts, and culminating in professional after-sales support; we ensure minimal down time and maximum productivity of our products.

Our goal has always been to provide our customers with best-in-class support and the highest quality products powered by leading technology and innovation.
